Dec No regular meeting. Happy Holidays!

Announcements

- Second Annual Mid-Atlantic Woodturning Symposium. Saturday Oct. 28 and Sunday Oct. 29, 2017, was attended by a number of our members. Demonstrators were generally excellent and the work on display in the gallery was of a very high quality. Only a bit over 2 hrs from NJ so anyone who missed it should plan on going to the next one!
- Has anyone made anything from the 600 yr old oak given out at the August meeting?? We would like to be able to present the church some pieces for their use.
- Gil would like us as a club to commit to making bowls with lids for the Beads of Courage project. Further info on this program can be found at : <http://www.beadsofcourage.org/pages/woodturners.html> The hope is that many of our members will make a lidded bowl per the guidelines and we can make a large club donation to this very worthwhile cause!
- It was announced that next year's Woodworking Show will be in Edison NJ, not Somerset.
- A request for info on a "quiet" air compressor was made. Answer: California Compressors

October's meeting was an expanded Show and Tell with much discussion. Photos follow.

REMINDER!!!! If you haven't already started, it's almost too late to get your piece ready for the November Woodturner's Exchange. Full info is attached as a PDF. This annual event is lots of fun and the more participation, the better.

As always:

Reminder: Hartville Tool (www.hartvilletool.com) offers club members 15% off. It was agreed not to send our membership list directly, therefore, any member wishing to take advantage of the offer should advise by sending an email to Stu Bauer at njwoodturners@gmail.com who will compile it and send the info to Hartville. It was noted that in addition to the 15% club discount, Hartville offers free shipping on all items, no minimum order required!

Bruce Arnold, our computer guru and webmaster, continues to put new information/photos/items for sale on our web site. Just go here on the main page www.njwoodturners.com. Lots of tools for sale and lots of interesting tidbits. Also check the website for updated meeting times and other items of interest.

If you haven't already, check out Pinterest.com and YouTube.com for woodturning and woodworking ideas. Don't forget that there are lots of videos on technique on the AAW website (you are a member of the AAW aren't you?)

And another reminder, Gil mentioned that NJWT has a display case in the main building of the Environmental Center. Directly next door to us. This offers a great opportunity to showcase your work and/or sell some pieces.

Keep turning and be safe! Stu

Photos from Sept., Oct., and Symposium attached
